ARK:

An Introduction (Parts(i)-(iv))

2018: We introduced the GOD-EQUALITY, the IMPOSSIBLE PATTERN, and the three (3) irreducibly complex qualities of the SINGULARITY in same through ARK (i)-(iii).

2020: GOD introduced N95 on Earth through the quieting FACE MASK; the symbol COVID-19 Virus at a global scale.

What is the relationship between the EQUALITY, the PATTERN and the N95 Earthly Reality? See "ANSWER 10" at page 12.

A. The Root of GOD

MEDITATE with THOUGHT

Is it impossible to prove the existence of the ONE with one equation despite many conflicted "religions", rooted in inconsistent Scriptural languages during rudimentary mathematical times?

GOD proved the presence of the ONE, whom XENOPHANES described as "in no way like men in shape or in thought..."

The nature of GOD is "seen" through assembled multi-lingual, mathematical evolution, distributed in splintered form; not as one, connected, consistent Scriptural Network rooted in equation. Is there "ALEPH", "a", ALPHA and Alif?

The impossible is a function of the possible; the possible is a function of the Natural, but the possible also includes the supernatural such as the single equation on the existence, meaning and purpose of GOD, "...in no way..."

i. Polarity in Equation

1. The GOD equation contains five (5) terms; each term is based upon a portion of 109 unhidden, countable, linguistically distinct, but mathematically intra-connected elements in evolution; each piece represents (in it's dis-connected state), sacred scriptural or other evolution to diverse communities; Communities of the "Hindu", Haudenosaunee; "Jewish", "CHRISTIAN" and "Muslim".²
2. The equation shows one consistent Pattern; both are theoretically impossible. The equation is as follows: $(2 + 22 + 1 + 4 + 78) = 109$; this is the foundation of Network.

(the "Equation")

ii. Polarity in Binary

3. Death only attends if there is a semblance of life; its polar co-dependant pair; one doesn't appear, without the opposite other, in the same reality. Differences are sometimes in degrees between pairs (e.g. fatal sickness and death); both death and life are related necessities of the same reality; and both are from the same ETERNITY' -> an endless, polar state... without life; and with life or rather disorganized breathless life...

² Note: It is highly recommended that one read the whole of "In the Name ..." Fancy, H. (© 7-4-2014) at www.thearkpair.com on the application of the 7th Seal (with Pi) to the evidence on Creation and Accountability in the Scriptural Network including GENESIS 4:1, and JV 4:1 on Creation; and MALACHI 4:1 (or GENESIS 1:4) and JV 1:4 on Accountability ("The Evidence"). See also "DIVISION & DISPAIR" at the same website on the ugliness of sectarianism and a response from the Ark. Observe that "Muslim" and "muslim" are not the same title.

4. The absence of nothingness comes with a presence of **SOMETHINGNESS** in the same reality. **REASON** mandates **ETERNITY** because of **POLARITY** i.e. living somethingness in nothingness such as a fertilized egg in a materially lifeless shell. Absence is never alone; because absence is a **direct function** of presence; but not necessarily in an orderly way.
5. The terms of the 'EQUATION' (e.g. 22 and 78) are **POLAR co-dependant pairs** originating from **ETERNITY**; formerly mixed-up material **ORGANIZED** into pairs of opposites through **SEPARATION** and **CORRECT PAIRING** of the mixed-up. **DIVINE IMMORTALITY** is a function of the separation (by line, not dissection) of the "existent" and the non-existent.
6. The above is a part of GOD's linguistic and mathematical **REASONING** in the ancient **VEDIC** **VEDA** ("RV"); more than 3500-year-old orthodox **SCRIPTURAL SANSKRIT EVOLUTION** preceded by an oral history.³ **RV 10:129** explains the **ORIGIN** of GOD through the **ORGANIZATION** of a portion of the materially (not completely) **CHAOTIC** pre-existent **ETERNITY** because the absence of nothingness comes with a presence of **SOMETHINGNESS**.
7. This **ETERNITY** consists of **POLAR co-dependant pairs** (e.g. **ORDER** and **DISORDER**) in a materially **UNPAIRED mixed-up environment** or **VIROENMANT**. **REASON** prohibits nothingness **WITHOUT SOMETHINGNESS** in the same reality, because if there is **DISORDER** there must also be **POLAR ORDER**; otherwise what is **DISORDER**?
8. **RV 10:129:4** confirms that **GOD** is **ORGANIZATION** in accordance with **MEASURABLE PATTERN**; beginning from within **ETERNITY** through the separation of **EXISTENCE** (as in **LIFE** such as **IMMORTALITY**) from **NON-EXISTENCE** (**DEATH** and **ENTROPY**)⁴ within the same reality.⁵
9. **ATHEISTS** are not wrong to speak of the origin or **ETERNITY** in the context of the absence or nothingness but are wrong to simultaneously deny the presence of **SOMETHINGNESS** in

³ The Rig Veda, Translator Ralph Griffith, (1896) at "The Rig Veda". See <http://www.sacred-texts.com/hin/index.htm#vedas> Note: The Translator of the cited Vedic translation observed that "Scholars have determined that the Rig Veda, the oldest of the four Vedas, was composed about 1500 B.C..." but there is debate on the exact or approximate age of the Vedas. The Vedas originally arose in oral format and were passed down.

⁴ See "The Second Law of Thermodynamics", Prof. Morowitz (of Physics and Biology at Yale), <http://www.panspermia.org/seconlaw.htm> at page 4. Note: Professor Morowitz drew a distinction between thermodynamic entropy and logical entropy. We are addressing and applying logical entropy within **GOD**. On logical entropy the Professor explained "The rule that things never organize themselves is also upheld in our everyday experience. Without someone to fix it, a broken glass never mends..." At its simplest, **ENTROPY** is disorder or decay. Query: Do **polar paired** charges of (+) and (-) in **electricity** self-organize into **CURRENT** under **unseen** law?

⁵ **RV 10:129:4** (in part) as follows: "...Sages who searched with their heart's thought discovered the existent's kinship in the non-existent." Note: The font, color, and other coded traits in **existence** and **non-existence**, as also applicable to other **DEMONSTRATIVE SCRIPTS**, does not appear in the original cited source as is a common in **ARIE**.

the same reality although absence makes no sense without presence – its polar co-dependant pair.

10. The GOD **EQUATION** is a function of the **POLAR** co-dependant pairs from **ETERNITY** because absence is never without its polar co-dependant presence, but in a materially unpaired chaotic space. Nothingness is the absence of **SOMETHINGNESS**; in the same reality.

(the “**ETERNITY**”)

iii. **Polarity** in **PATTERN**

11. The **PATTERN** to **GOD** began with a **single** polar co-dependant pair, which expanded into **complexity**; into **109** unhidden **polar paired**

elements in **Inter-Connected** structure; with **PATTERN**. This was referenced by **CONFUCIUS** at **12:8**, before year **ZERO** as follows: “If patterns were like plain substance and plain substance like patterns, the pelts of tigers [as shown]⁶ and leopards would be like those of hounds and sheep.”⁷ **Sheep** and **Tigers** are the most extreme **polar, co-dependant pairs** in **12:8**; polar in outer on “**PATTERN**” and in thought and behavior; but their **diversity** in “**PATTERN**” strengtens the **unity** due to absence of **UNIFORMITY**.

12. Those are primary traits of the **EQUATION** because **12:8** is **diffusely** connected to the **PATTERN**. **Insight**: **12:8** is a **paired point** in the **109**; it is the specific point of the **12th** **HEBREW** **algebraic** letter of “**LAMEDH**” or “**L**”. **GOD** separated it by **8** verses from every other **HEBREW** letter in **PSALM 119**. **12:8** on “**PATTERN**” and **12•8** are **PATTERN**.

13. The **algebraic letters** in the **PATTERN** represent **quantities**,⁸ based upon the **ancient** mathematical system of **Alphabetic Numeration**.⁹ Therefore, “**L**” represents **30** and

⁸ **Note**: Unlike the people of the Indian sub-continent, Greeks, Romans, Hebrew people “did not create special symbols for numbers; instead they assigned a specific letter to each digit” and “these are called alphabetical numeration”. The same occurred in respect of Arabic. See overview of Alphabetic Numeration at *Numbers*, Guedj, Denis, (© Gallimard 1996), (© on English translation Harry N. Abrams Inc. 1997), (the “**Numbers**”) at pg. 34.

⁹ See **Numbers** at pages 32-33 re: “writing was invented” [as in **discovered**] in 3300 B.C. by Babylonians; page 34 re: Greeks, Romans, Hebrews use letters instead of “special symbols called numbers”. The use of letter for numerical quantities was also practiced by Arabs. On the historical values of **Arabic** letters see “*Overview of Abjad Numerical System*”, Frank Lewis, at Bahá’í Library Online, p. 1 at http://bahai-library.com/lewis_abjad_numerological_system. $$\text{(the “12:U”) = (ALR-L)}^{10}$$

14. The PaTtLeN was made by GOD before discovery of number on Earth with 109 unhidden elements known as GOD-Particle⁷; it appears with quantified values on the algebraic. The link between Confucius 12:8 and Pattern is marked with ☀:

15. Is the Introduction on the link by subsets under SET Theory between 12:8; 12•8 and 12•18 too complex? Simplify: Oneness is the essence of the PaTtLeN; it is impossible to understand the layered multi-lingual, Intra-Connected (((Truth purposefully or correctly, without also understanding its polar codependent paired relationships. 1. **109**: This is the solution to the **GOD** Equation: $(2 + 22 + 1 + 4 + 78) = 109$.
2. **29-29**: There are exactly **29** unhidde**n** (mostly single) **GOD-Particle**s in the first row of the **PaTtLeN** consisting of $(...22 + 1 + 4 = 29)$; as in **22** **HEBREW**; **1** **इन्द्रकेतो**; and **4** **ἄρξξ** **Particle**s. There are also exactly **29** **Qurānic** with **78** **Arabic** countable (mostly sequenced) **algebraic Particle**s. There is **balance** between the multi-lingual **29=29** in paired rows.
3. **22-1-3**: The **इन्द्रकेतो** and **ἄρξξ** **Particle**s were revealed with definition; **GOD** said “**י** **אלו** **ב**” and a “**combinations of letters**” at **א** **10:33**; and **GOD** said “I am the **ALPHA** and the **ΩMEGA**...” at **Revelation 22:13**. **Observe**: In the upper row of the **PaTtLeN** there are exactly **22** **HEBREW** with **1** **इन्द्रकेतो**; and **3** **ἄρξξ** **pairs** of “**ΑΩ**” **Particle**s in **PaTtLeN** $(22:13) \subseteq \{22=1=3\}$.
4. **Infinites**: **3** **Qurānic** algebraic sequences **directly** link to **3** distinct **infinities** of ϕ , “**π**” and **Pi**, in accordance with 19th century **Set Theory**. Those **infinities** define the **shapes** of **sin**, **consequence**, and **TRUth** with number, meaning, color...; **sin** and **TRUth** are also represented by **2** naturally, visibly living **Particle**s on the melting **Earth**; bestowed to the **Indigenous**...
5. **30-30**: The **natural**s are **polar paired plants** (fruit with leaves) which apply **key facets** of the subsequent **abstract algebra**. The polar plants are also analytical tools of the **PaTtLeN** producing a combined **unhidden**, paired balance of the flora and formulas of **30-30**.
6. **19**: The plants are **tangible**, visibly living, measurable, **sensational Particle**s grown under intangible **Light** of the Equation whose mathematical **root is 10**; a subset of **109**; the solution to $(2 + 22 + 1 + 4 + 78) = 109$. The intra-connected **Multi-Lingual PaTtLeN** conveyed during **rudimentary** mathematical times (over millennia) is **Impossible** to accomplish without **GOD**.

(“**ῥοῦτ** **1**”)

16. This is principle **1** in the **Sacred Tree** and was entitled “**Wisdom**”; it is the **Wisdom** of **ORganization** and the methodology to the **PaTtLeN** on **unity** without ritualistic or other **UNIFORMity**. **Sectarian** unity via **uniformity** is a **coerced** reality; or **fallacy**.
17. Therefore, the methodology applied by **GOD** to accomplish **PaTtLeN** was through **unity** with **diversity** as in polar paired co-dependency in **EquaTion**. The method was memorialized in the **Indigenous**’ **Sacred Tree** as follows in part: “*Everything is part of a single whole. Everything is connected in some way to everything else. It is therefore possible to understand something only if we understand how it is connected to everything else.*”¹² **Grace** is unseen **REASON**; not seen **face**.

(“**Methodology**”)

THIS CONCLUDES the **1st 3** sub-parts on the **GOD-EquaTion** with polar **PaTtLeN** in **17** verses, on **7** pages in an **Introduction** to the **ark**, in the **ARK...**

¹² *The Sacred Tree*, Phil Lane (Chairman), (© 1984 Four Worlds International) at page at page 26. Apply your **knowledge** and **corresponding mathematical experience** on **fit** between **Particle**s in the **PaTtLeN**; apply your **Wisdom** to the question on the title page of the Ark: **Who** would use **algebraic link** (e.g. letters as numbers) to draw with modern **Set Theory** numerical correspondence in coordinates (i.e. **119** and **19:1**); in sets (e.g. **אין** and **אין**) and in quantified mathematical values of sets (e.g. **אין** (**20**) & **אין** (**70**) in the **HEBREW 1495** and **Arabic 195**, respectively)? To the **Reasoning**, **GOD** gave principled **cooperation**; to the monkey **GOD** gave **conflict** and competition over perishable things; and to **parity** who practice **Wisdom** the **ONE** gave the relationship of **friendship**...

B. COLOUR of REASON

1. GOD speaks diversity but temples, Synagogues, Churches, and Mosques..., speak in uniformities, at segregated places, speaking only in Sanskrit, Hebrew, Greek or Arabic.

2. Examine the adjacent Chart 

3. There are 109 isolated shapes (as listed in column 2 entitled "Particle" in the Chart) and the shapes were conveyed through five (5) intra-connected scriptural works (as listed in column 3 of the Chart entitled "Source").

(the "Chart")

Language	Particle	Source
Haudenosaunee (Iroquoian)	2	Creation
HEBREW	22	PSALMS OF David 119
संस्कृत	1	bhagavad gita 10:33
GREEK	6	REVELATION 1:8; 21:6 & 22:13
Arabic (with the 9 single, unpaired Surahs in the shade)	78	Qur'an at 29 Surahs 2, 3, 7, 10, 11, 12, 13, 14, 15, 19, 20, 26, 27, 28, 29, 30, 31, 32, 36, 38, 40, 41, 42, 43, 44, 45, 46, 50, & 68.

4. Under the laws of evidence, the 109 shapes are members of the same group of similar-form and fact evidence because all 109 shapes were conveyed in five (5) different languages but all 109 contribute to and make ONE mathematically visible Pattern.

5. The number-based Pattern was and remains linked to chapter, verse and meaning of all natural and linguistic based Revelation from the multi-lingual Singularity.

6. No created person (e.g. Human) or evolved being (e.g. Angel) is in inter-active competition on salvation, but everyone is interconnected to one consistent whole-way, ultimately leading to the Circumference, Pattern and the anti-Pattern.

7. The Apostolic Lao Tse "saw" GOD's Patterned way in the poetic co-dependant interactive relationship between absence and presence. He saw that the "Tao of the ONE and its Creation are ONE".¹³

¹³ Tao Te Ching, Lao Tse, (Editor Dr. Antonov), (Translator Dr. Nikolenko) (© 2007 Antonov) at verse 1. Note: Review the following excerpt from the cited work:

"The book Tao Te Ching was written by the great Chinese spiritual adept Lao Tse about 2500 years ago. In that incarnation, Lao Tse was a disciple of non-incarnate Huang Di and achieved full spiritual self realization. At the present time, Lao Tse provides spiritual help to incarnate people. The work on creating this edition of Tao Te Ching was done at the personal request of Lao Tse and with His help. Tao Te Ching is one of the most fundamental text-books on the philosophy and methodology of spiritual development."

Is the Tao Te Ching a philosophy "book" (or one of the Scriptural "books") whose revelation is an interconnected member of the Network?

8. The same principle is “seen” in the **MethoDology** (bestowed upon the **Indigenous**) providing (on the same **Way**) in precious part: “*All things are interrelated. Everything in the universe is part of a single whole.*”¹⁴ The best worlds are based upon **Unity** without **UNIformity**; that is the **Patterned Way** of the **Singularity**.

(the “**Way**”)

9. The shapes began with the bestowal of a pair of polar living shapes (e.g. **spiraling cone** fruit) to the **Iroquoian** in current Canada and the USA), in link with future algebraic benchmark shapes e.g. **Phi** in 1.61... Salvation is earned through **Pattern**, principle and practice, never **pigment**.

10. Examine the **Chart** at column 1 entitled “**Language**” (e.g. **row 2** on the **22** “**HEBREW**” letters) in comparison to the **number** in column 2 (e.g. **row 5** on the **78** in **Arabic**) to begin to “see” the meaning of the **anti-racist Singularity**. Don’t you know salvation is a function of **merit** in consciousness of justice, not motherhood, lineage or **DNA**?

11. The **109**-shapes (known as **GOD-Particle**) were **spelled** out in **isolated** single or grouped **alphabetical** sequences and natural shapes in ancient texts, forming parts of the **one Splintered Scriptural Network**.

12. The scriptural sources for the **Particle** are listed in column 3 of the **Chart** entitled “**Source**”; an example of such **Source** is verse **10:33** in the **Bhagavad Gita**; the verse is part of the **song** from the **Singularity**.

iv. ONE-Divinity = Intra-connected Diversity¹⁵

13. Examine the first **song** with express definition of the past and the future **GOD-Particles** at **Chapter 10**, verse **33** of the **Gita**; the **चदरइह** provides as follows: “*Of the letters, I am “A”. I am also the duality in combinations of letters. I am the eternal time. I am the all-pervasive Creator.*”¹⁶

(the “**10:33 “A”**”)

¹⁴ See **MethoDology** supra, or **Sacred Tree** at page 26.

¹⁵ See www.thearkpair.com on **ARk** “**A**” (i)-(iii) on the **GOD-Equality** dated November 6th 2018. It is necessary to understand “**A**” (i)-(iii) to understand “**B**” (iv).

¹⁶ **Gita 10:33. Note:** See “*BHAGAVAD GITA with commentaries Edition of the Bhagavad Gita and commentaries by Dr. Vladimir Antonov Translated into English by Mikhail Nikolenko*”, (© 2008 Antonov) (the “**Gita**”) available at http://www.swami-center.org/en/text/bhagavad_gita.pdf.

14. Who can begin **duality** as a function of linked **diversity** in **time**, such as through **aging creation**, if not the **ONE** who **also** used diversity in shape to show ONE **PaTtErN** through letters (also used by ancient human communities like specific numbers)?
15. What type of creature pursues **outer uniformity**, in the face of obvious intra-connected **outer duality** such as day and night, where **day** cannot exist without **night**? The answer is the first **truth** which breaks-down **outer whiteness**, as a function of **inner REASON** such as through **10:33 "a"**.
16. Shapes of letters were used by human beings as quantified numbers, before the discovery of shaped numbers as a function of ancient mathematics called Alphabetic Numeration.
17. Before the shapes of numbers, an alphabetical letter was equal to a specific quantity (e.g. 40) in **HEBREW** and **Arabic** such as follows: **A = 1**; **L = 30**, **M = 40** and **S = 90**.
18. All **78 Arabic GOD-Particles** (appearing mostly in **26** multi-letter **sequences** as in **ALMS**) have a **corresponding letter** amongst the **22 HEBREW Particle**), which **22** are also members of the same **PaTtErN** and hold an **identical mathematical value** such that (**m** and **م** both represent **40** under Alphabetic Numeration.
19. There is **kinship** between the **Hebrew** and **Arabic** based upon similar-fact alphabetic **Particles** in the ONE multi-lingual **PaTtErN** of the **SingulariTy**.¹⁷ Fused (degrees of) polarity produces intense energy; so, does interactive co-dependant **diversity** in **GOD**.
20. **GOD** defined **GOD** with **109 Shapes**; **167** of these **shapes** are in **one-to-one correspondence** with the **alphabetical** letters of **4** human **languages**; **2** of which written languages arose from the linguistic life of **COLOURED** people on **Earth** i.e. **Arabs** and **Indians**.
21. However, before any of the algebraic Particles were conveyed on Earth, **1 pair** of polar living shapes on the **PaTtErN** were conveyed to the worlds through the **Iroquoian**. These are the most complex **GOD-Particle**; these natural shapes would correspond to the **future** algebraic **Particles**.
22. Most of the algebraic letters, along with an express conceptual definition of the **GOD-Particle** in the **gita** were bestowed upon the **Indians** (in Asia), **Arabs** (in the Middle East) and **Indigenous** (in current North America). Collectively, the **51 GOD-Particle**

¹⁷ **Note:** There are 3 primary parts to the **PaTtErN**. The **ARK** has shown one part to the **PaTtErN** at different times i.e. before and after the **FIRST Seal** was opened with rotating mathematics on **Earth** as in **Heaven**.

29. We are not **conflicted** tribal-GODS; We are **Singularity** as a function of **polar** co-dependant **Inter-Action**-the irreducibly complex foundational qualities to **Pattern** in **Equation**, as seen in **absence** and **presence** and everything in between.

THIS CONCLUDES the **4th** sub-part on the co-dependant **similar-fact evidence** to the otherwise **polar** interactive **Pattern** of GOD (subject to “**ANSWER 10**”). We tender **29** verses on **4** pages and a continuation of the earlier **Introduction** on the **ark**, in the **ARK...**

ANSWER 10: “Days of God”
(50 + 95 = 145) ⊆ {N₉₅} = 145

Question: What is the link between the **Equation** **Pattern** and the **N95 FACE MASK** in this **Earthly Reality**?

- **109** **SHAPES** define the **Singularity** through the **Equation**, and **Pattern** as a function **5** languages e.g. **6** **SHAPED** **GREEK** **GOD-Parti** **let**;
- **107** of those **SHAPES** are in **one-to-one** correspondence with the **alphabetical** letters of **4** human languages e.g. **इन्द्रकेतो** on “**a**”; and **2** languages (i.e. **HEBREW** and **Arabic**) were the means of conveyance of **100** of the **109** **SHAPES** to **Singularity**;
- **78** **Arabic** and **22** **HEBREW** **SHAPED** letters of the **Pattern** contain the countable shapes of “**N**”. In Hebrew “**N**” is shaped as “**נ**”; and in Arabic the “**N**” is shaped as “**ن**”. and in both **LANGUAGES** “**N**” is the **14th** distinct alphabetic **GOD-Parti** **let** and both bears a value of **50** each; and
